Preface

This report contains statistics for 111 Judaeo-Christian church bodies, providing information on the number of their churches and members for regions, states and counties of the United States.

The study on which this report was based was sponsored jointly by the Department of Records and Research of the African Methodist Episcopal Zion Church, the Research Services Department of the Sunday School Board of the Southern Baptist Convention, the Office of Research, Evaluation and Planning of the National Council of the Churches of Christ in the U.S.A., the Lutheran Council in the U.S.A., and the Glenmary Research Center (a Catholic agency). The authors are the official representatives of the five sponsoring agencies on the study's executive committee. Herman Anderson represented the AME Zion; Martin Bradley, the SBC Sunday School Board; Peggy Shriver, the National Council; Paul Goetting, the Lutheran Council; and Bernard Quinn, the Glenmary Research Center.

A generous grant from the members of Aid Association for Lutherans covered major costs for the study and for the distribution of this report. Additional funds came from proceeds of the sale of books and tapes from the 1971 church membership study. The remaining costs were absorbed by the five sponsoring agencies and the denominational offices that furnished the data.

The authors wish to thank the members of the study's advisory committee: Jackson W. Carroll, John E. Dyble, Dean R. Hoge, Constant H. Jacquet, Jr., Douglas W. Johnson, William Kammrath, Mac Lynn, William McKinney, William Newman, Paul Picard, Edward A. Rauff, David Roozen, Herbert I. Sauer, James R. Shortridge, and Wilbur Zelinsky.

Special thanks are also due to those who served as denominational contact persons for furnishing the data:

William J. Goodwin, Research Technician of the Glenmary Research Center, served as manager of the data collection and checking process. Alexander Akalovsky, Jr. did the computer programming, James Kmetz did the graphics on the map, and Harry Wilson offered assistance with the analysis. Other members of the Glenmary staff who worked on the study were: Michael Hounslow, Peter Kreysa, Kathleen Goodwin, Apolo Kaggwa and John McAllister.

Statistics contained in this study are also available on computer tape, and, in combination with other data, in the form of Church Planning Data booklets for judicatories. Inquiries regarding the *computer tape* may be addressed to the Roper Center, Office of User Services, Box U-164R, University of Connecticut, Storrs, Connecticut 06268. Inquiries regarding *Catholic* Planning Data booklets may be addressed to the Glenmary Research Center, 750 Piedmont Ave., NE, Atlanta, Georgia 30308. Inquiries regarding *Protestant and other* Planning Data booklets may be addressed to the Office of Research, Evaluation and Planning, National Council of the Churches of Christ in the U.S.A., 475 Riverside Dr., New York, N.Y. 10115.

It is hoped that this report, despite its limitations, will stimulate ecumenical awareness at the judicatory and county level, aid in denominational planning, and contribute to the study of long-range religious trends in America.

Introduction

SCOPE OF THE STUDY

This publication presents data reported by the 111 church bodies who participated in a study sponsored jointly by the Department of Records and Research of the African Methodist Episcopal Zion Church, the Research Services Department of the Sunday School Board of the Southern Baptist Convention, the Office of Research, Evaluation and Planning of the National Council of the Churches of Christ in the U.S.A., the Lutheran Council in the U.S.A., and the Glenmary Research Center (a Catholic agency).

The sponsors invited all church bodies that could be identified as Judaeo-Christian to participate. The 111 groups that furnished data reported 231,708 congregations with 112,538,310 adherents.[1] No attempt was made to count strictly independent churches that have no connection with a denomination.

The present study is related to two previous studies.[2] The first reported 1952 statistics and was sponsored and published by the National Council of the Churches of Christ in the U.S.A. in 1956. The second reported 1971 statistics and was sponsored by the Office of Research, Evaluation and Planning of the National Council of the Churches of Christ in the U.S.A., the Department of Research and Statistics of the Lutheran Church—Missouri Synod, and the Glenmary Research Center. It was published in 1974 by the Glenmary Research Center.

PARTICIPATING CHURCH BODIES

The 17 denominations with adherents of a million or more account for 91.9 percent of the reported adherents. The 25 groups with adherents of 100,000 to 999,999 account for an additional 6.9 percent. The remaining 69 groups comprise only 1.2 percent.

The following denominations participated in the 1980 study. The number of counties in which the groups report churches will provide a general idea of their geographic extension. (At the time of the study there were 3102 counties or county-equivalents in the United States.)

INCLUSIVENESS OF THE STUDY

The study identified by county 112.5 million adherents, in 111 denominations. It is not known what percent of total Judaeo-Christian adherents this actually represents. The difficulty is in obtaining an agreed-upon basis for determining the total Judaeo-Christian adherents for the whole United States.

The *Yearbook of American and Canadian Churches*[3] lists 53.6 million "full, communicant or confirmed members" reported officially by U.S. church bodies. The present study reports 48.8 million full, communicant or confirmed members. From this perspective, the present study reported 91.0 percent of the U.S. communicant membership totals officially submitted to the *Yearbook of American and Canadian Churches.*

It is well known that there are independent and community churches, as well as religious movements and associations that might be considered churches, whose membership is not reported to the *Yearbook*. Because the membership of these groups is unknown, there is no way of determining the percent of church membership the present study would represent if these groups were included in the total. (Some members of such churches or groups do, of course, also belong to denominations participating in the study and, therefore, are accounted for in the CMS data reported.)

Jewish Bodies. With the assistance of the United Synagogue of America, the full members (individual adult members) of 793 Conservative synagogues were identified by county. For this group, the number of total adherents listed in Table 1 of this study should probably be increased, because the CMS method of estimating adherents adds children 13 and under to the full members; whereas in this case, 18 and under is probably a better basis. With the assistance of the Union of American Hebrew Congregations, the full members of 708 Reform congregations were also identified by county. No county information is available on either full members or adherents of Orthodox synagogues, although according to one estimate, their total number of adherents could be as high as 1.3 million.[4] The general Jewish population is, of course, considerably larger than the adherents of synagogues or congregations.[5]

[3] Constant H. Jacquet, Jr., ed., *Yearbook of American and Canadian Churches: 1981* (Nashville: Abingdon Press, 1981), pp. 225-232.

[4] In a telephone conversation with the staff of the study, on April 20, 1982, Rabbi Arnie Rund of the Union of Orthodox Jewish Congregations of America stated that about 1.3 million persons identify with Orthodox synagogues or institutions.

Black Church Members. Four Black denominations, accounting for 1.8 million adherents, participated in the study.[6] The 107 other participants were asked to estimate the number of Blacks among their adherents. The 22 groups who responded reported a total of 1.8 million adherents.[7] There is no way of telling how many Blacks are adherents of the remaining 85 denominations who participated in the study.

The African Methodist Episcopal Church had hoped to participate, but their county statistics were not ready for release in time to meet the deadline. It is expected that their statistics will soon become available. The Progressive National Baptist Convention, Inc. and the National Primitive Baptist Convention, Inc. had also hoped to participate, but their records were only partially complete. Major efforts were made to enlist the participation of the four other large Black Churches,[8] but without success. The problem is the absence or incompleteness of membership figures. The 17 small non-participating Black denominations listed in the *Yearbook of American and Canadian Churches* were, of course, also invited to participate.

Orthodox Churches. Four Orthodox bodies, accounting for combined adherents of 55,000, participated in the study.[9] Although sizeable efforts were made to obtain data for the remaining 17 groups, both directly and with the assistance of the Standing Conference of Canonical Orthodox Bishops in the Americas (SCOBA), statistics were not actually obtained.

Other Groups. Besides the denominations mentioned above, there are 11 non-participating church bodies that reported more than 100,000 members to the *Yearbook of American and Canadian Churches:* Jehovah's Witnesses, United Pentecostal Church International, Polish National Catholic Church of America, General Association of Regular Baptist Churches, Free Will Baptists, Church of God of Prophecy, National Council of Community Churches, Reorganized Church of Jesus Christ of Latter Day Saints, Independent Fundamental Churches of America, Pentecostal Church of God of America, Inc., and the Wesleyan Church.

PROBLEMS

Defining Membership. The most critical methodological problem was that of defining church membership. Since there is no generally acceptable statistical definition of church membership, it was felt that the designation of members rested finally with the denominations themselves.

In an effort to achieve comparability of data, however, two major categories were established:

> COMMUNICANT, CONFIRMED, FULL MEMBERS: regular members with full membership status; and
>
> TOTAL ADHERENTS: all members, including full members, their children and the estimated number of other regular participants who are not considered as communicant, confirmed or full members, for example, the "baptized," "those not confirmed," "those not eligible for communion," and the like.

Of the 111 participating denominations, 54 reported communicants *and* adherents; two (Catholics and Latter-day Saints) reported adherents only; and 55 reported communicants only.[10] For purposes of this report, the church membership study staff estimated the total adherents for the 55 groups that reported communicants only, according to a formula discussed below.

Participants were also requested to furnish descriptive definitions of the statistics they actually submitted. *Appendix A* contains the definitions submitted by the 67 groups that responded to this request.

Estimating Total Adherents. Since it was planned to use total adherents in computing percent of church membership to total population, for those 55 denominations that reported only communicant members, total adherents were estimated according to the following procedure. The total county population was divided by the total county population less children 13 years and under, and the resulting figure was multiplied by the communicant members.[11] The 1980 U.S. Census was used to determine for each county the population 13 years and under. An asterisk after a figure in the tables indicates that total adherents were estimated through use of this procedure, rather than reported directly by denominations.

[5] The *American Jewish Year Book 1981* (New York: American Jewish Committee, 1980), vol. 81, p. 173, reports 5.9 million.

[6] The African Methodist Episcopal Zion Church, the Bible Church of Christ, Inc., the Christian Methodist Episcopal Church and the Fire Baptized Holiness Church (Wesleyan).

[7] The following groups provided information on Black membership: American Baptist Association, Baptist General Conference, Baptist Missionary Association of America, Catholic Church, Christian and Missionary Alliance, Christian Church (Disciples), Christian Churches and Churches of Christ, Christian Reformed Church, Church of God (Cleveland, Tennessee), Church of the Nazarene, Churches of Christ, Congregational Christian Churches, Conservative Baptist Association of America, Episcopal Church, Lutheran Church in America, Lutheran Church—Missouri Synod, Mennonite Church, Presbyterian Church in the U.S., Reformed Church in America, Seventh-day Adventists, United Church of Christ, United Presbyterian Church in the U.S.A.

[10] Consult Table 1 to learn which denominations reported what.

[11] Thus the total adherents in a county with population of 1000 and 100 children 13 years and under would be the communicant members multiplied by 1.11; total adherents in a county with population of 1000 and 300 children would be the communicant members multiplied by 1.43; and total adherents in a county with population of 1000 and 500 children would be the confirmed members multiplied by 2.00.

The 55 denominations whose total adherents were estimated in this way were asked to comment on the procedure. Of the 32 who responded, 25 approved the formula, two had reservations, and five did not approve. The comments submitted are reproduced in *Appendix B*.

Locating Members by County. Membership statistics are generally reported for the county in which the church itself is located, rather than for the county in which the member resides.[12] In a majority of cases the county of residence will correspond to the county where the church is located, although modern mobility patterns suggest caution in accepting this assumption in every case.

County Listings. The church membership study employed the same counties or county-equivalents as the 1980 U.S. Census. Since the 1971 church membership study was published, the new county of Kalawao, Hawaii (formerly a part of Maui County) has been created; Washabaugh County, South Dakota has been absorbed into Jackson County; Nansemond County, Virginia has become Suffolk City; and Chesapeake City and Portsmouth City, Virginia are now part of Norfolk City. All of these changes have been incorporated into the 1980 church membership study.

In Virginia there are independent cities that are legally separate from the counties of that state. Since most denominations record location of churches within the counties from which these cities have been separated, it was decided to combine most of these cities with contiguous counties. A list of combinations and exceptions will be found in *Appendix C*.

Because Alaska has no counties, the 1980 census areas and boroughs that serve as county-equivalents for statistical reporting purposes were employed in this study. These 1980 county-equivalents differ from those used in the 1971 church membership study. *Appendix D* provides a comparative listing of the two. The change in geographic boundaries may be observed by comparing the fold-out maps of the 1971 and 1980 church membership studies.

Reporting Date. The study was designed to gather statistics as close as possible to the April 1, 1980 U.S. Census date. Accordingly, the request to the denominations stated: "We are asking that statistics be reported to us by the month of September, 1980. We hope to receive data from your *statistical year that ends anytime during 1979;* report earlier data only if that is all that is available by September, 1980."

Of the 90 denominations that stated that their statistics were valid as of a specific date, 40 gave December 31, 1979 or January 1, 1980 as the date. The dates for the other 50 ranged from October 31, 1978 to November 10, 1981. Seven groups did not indicate a specific date, but only the year (1979 or 1980).[13]

Accuracy of Reporting Procedures. Most large denominations maintain national offices that receive statistical reports from their individual congregations; these reports were combined to provide the membership data for this study. On the other hand, many smaller denominations, as well as those in which local churches have a great deal of autonomy, only request and do not require such reports. This means that data for a few denominations will not be as complete and current as might be desired.

During the course of the study, the denominational offices furnishing data were asked to comment on the accuracy of their own reporting procedures and to furnish copies of the forms they used to collect the data. Forms were received from 37 denominations, and these are available for study at the offices of the Glenmary Research Center.[14] Comments were received from 55 denominations; these comments will be found in *Appendix E*.

Dual Affiliation. In the 1980 church membership study some attempt was made to assess the extent of the practice whereby a local congregation affiliates with more than one denomination. The denominations were asked: "Do any local congregations of your denomination maintain affiliation with another denomination as well?" Of the 100 groups that replied, 72 responded No. The comments of the 28 denominations who responded Yes are contained in *Appendix F*. In many cases the comments will also reveal how dual membership statistics were handled for purposes of reporting to this study.

[12] Denominations were asked to state their general policy on reporting church members. Of the 82 who responded to the inquiry, all but one (Baptist General Conference) indicated county of membership rather than county of residence.

[13] The following code numbers (see *Abbreviations* for code key) indicate the denominations who gave December 31, 1979 or January 1, 1980 as the date of their statistics: 001, 015, 019, 029, 053, 055, 063, 071, 081, 083, 093, 105, 123, 157, 163, 164, 185, 193, 201, 209, 221, 281, 283, 287, 293, 295, 313, 335, 356, 357, 367, 375, 381, 403, 413, 415, 419, 443, 449, 453. [14] See *Appendix E* for a list of denominations furnishing data collection forms.

Membership Greater Than Population. There are 31 counties in this study reporting more church adherents than census population: GEORGIA: Franklin; HAWAII: Kalawao; KANSAS: Comanche, Morton, Wichita; KENTUCKY: Washington; MINNESOTA: Faribault, Traverse; NEBRASKA: Greeley; NEW MEXICO: Guadalupe, Harding, Mora, Taos; NORTH DAKOTA: Hettinger, LaMoure, Rolette; OKLAHOMA: Harmon; SOUTH DAKOTA: Douglas, Turner; TENNESSEE: Hancock; TEXAS: Cottle, Dallam, Haskell, Jeff Davis, Knox, Motley, Starr, Throckmorton, Willacy; UTAH: Morgan; VIRGINIA: Richmond. Reasons for the discrepancy will no doubt differ from county to county. But among the explanations the following might be suggested: U.S. Census undercount, church membership overcount, or county of residence differing from county of membership.

DATA PRESENTATION

This report consists of four tables and a fold-out map. The information is also available on computer tape and, in combination with other data, in the form of Church Planning Data booklets for judicatories.[15]

Table 1. The first table, "Churches and Church Membership by Denomination, for the United States: 1980," presents for each denomination the number of churches; the number of communicant, confirmed or full members; and the total adherents for the entire United States. It also indicates, for each denomination, what percent of the U.S. population and what percent of the total reported church membership its adherents comprise. Population figures are from the *U.S. Census 1980, Advance Reports.*

In all the tables, denominational names are abbreviated. A list of abbreviations will be found on the pages immediately preceding Table 1.

Table 2. The second table, "Churches and Church Membership by Region and Denomination: 1980," presents, for each of the nine census regions of the United States, the total of churches and members for each participating denomination. Both communicant, confirmed or full members and total adherents are given, as well as the percent of regional population and of total adherents that each denomination represents.

A map displaying the nine census regions will be found on the page immediately preceding Table 2.

Table 3. The third table, "Churches and Church Membership by State and Denomination: 1980," presents for each state the total of churches and members for each participating denomination. Both communicant, confirmed or full members and total adherents are given, as well as the percent of state population and of total adherents that each denomination represents. States are arranged alphabetically within the table.

Table 4. The fourth table, "Churches and Church Membership by County and Denomination: 1980," provides the detailed data on which the totals in Tables 1-3 are based.

For each county of the United States, there is given the grand total of churches and members reported. Both communicant, confirmed or full members and total adherents are shown, as well as the percent of the county population that the combined total church adherents represent.

In addition, for each county there is a breakdown of data by denomination, showing for each communion the number of churches; the number of communicant, confirmed or full members; the number of total adherents; and the percent of county population and of total adherents its adherents comprise.

Fold-Out Map. Accompanying this report is a color map, 28" × 41", entitled *Major Denominational Families by Counties of the United States: 1980.* By means of a color code, this map indicates, for each county of the United States, the participating group that predominates. In consultation with the participating denominations, the various Adventist, Baptist, Brethren, Christian, Churches of God, Latter Day Saints, Lutheran, Mennonite, Methodist, Pentecostal, Presbyterian, and Reformed church bodies were grouped into families.[16] Catholics, Congregational Christians, Episcopalians, Friends, Moravians, and members of the United Church of Christ were not grouped into families but were treated as separate units.

Latter Day Saints	74
Christian	52
United Church of Christ	8
Churches of God	5
Reformed	5

A solid color on the map indicates that a group has 50 percent or more of the adherents in that county, as reported in the present study. When no group has 50 percent, a striped shading indicates the largest group with 25-49 percent of adherents in a county. The 217 counties where no group has 25 percent are left blank.

The percentages on which the map is based are taken from Table 4, Column 5 of this report.

METHODOLOGY

The actual data collection was carried out in the offices of the Glenmary Research Center, which at that time was located in Washington, D.C. The data collection was managed by William J. Goodwin, staff person for the study's executive committee, under the supervision of Bernard Quinn, who served as committee liaison for that purpose. William Goodwin also assisted in enlisting denominational participation and in a variety of other administrative and editorial tasks.

On August 6, 1979 an invitation[17] to participate in the study was sent to all the Judaeo-Christian church bodies listed in the *Yearbook of American and Canadian Churches,* plus a few others for whom addresses could be found. Each denomination was assigned a member of the study's executive committee, whose responsibility was to encourage participation, by personal contact and other means, and to answer questions. The initial written invitation was followed by four additional general mailings and by special letters, personal visits and phone calls. As a result of these efforts, which extended over a two-year period, 228 denominations were invited, 111 actually participated, 21 expressed the intention to participate but were prevented from doing so, 36 declined to participate, and 60 did not respond.

Denominations agreeing to participate were asked to appoint a contact person, and signify their intentions on a special form. Three forms were then sent to the contact persons: instructions for reporting data; a transmittal sheet to be signed and sent with the data collected; and a state-county form for listing the statistics themselves. The contact persons were given the option of submitting their own computer print-out according to a prescribed format, or of using the forms provided by the study.

This process put the major burden of work on the denominational offices, since they were asked to compile data by county for all their congregations. In some cases, however, denominations were able to furnish information only in the form of yearbooks or other sources. Transferring yearbook information into county data then became the responsibility of the CMS staff. In a few cases the denominations instructed the CMS staff to estimate congregational membership according to a formula, and approved the result.[18] In all instances, however, the denominational contact person reviewed the statistics and signed the transmittal sheet.

Lutheran Confession, Estonian Evangelical Lutheran Church, Association of Evangelical Lutheran Churches, Evangelical Lutheran Synod, Association of Free Lutheran Congregations, Latvian Evangelical Lutheran Church in America, Lutheran Church in America, Lutheran Church—Missouri Synod, Protes'tant Conference of the Wisconsin Synod, Wisconsin Evangelical Lutheran Synod; MENNONITE: Beachy Amish Mennonite Churches, Church of God in Christ (Mennonite), Evangelical Mennonite Brethren Conference, Evangelical Mennonite Church, Inc., General Conference of Mennonite Brethren Churches, Mennonite Church, General Conference of the Mennonite Church, Old Order Amish Church; METHODIST: African Methodist Episcopal Zion Church, Christian Methodist Episcopal Church, Evangelical Methodist Church, Free Methodist Church of North America, Primitive Methodist Church in the U.S.A., The Southern Methodist Church, United Methodist Church; PENTECOSTAL: Assemblies of God, Bible Church of Christ, Inc., Church of God (Cleveland, Tennessee), Congregational Holiness Church, International Church of the Foursquare Gospel, Open Bible Standard Churches, Inc., Pentecostal Free Will Baptist Church, Inc., Pentecostal Holiness Church, Inc.; PRESBYTERIAN: Associate Reformed Presbyterian Church (General Synod), Cumberland Presbyterian Church, Orthodox Presbyterian Church, Presbyterian Church in America, Presbyterian Church in the United States, Reformed Presbyterian Church (Evangelical Synod), Reformed Presbyterian Church of North America, United Presbyterian Church in the U.S.A.; REFORMED: Christian Reformed Church, Protestant Reformed Churches in America, Reformed Church in America.

[17] Instruments for gathering the data will be found in *Appendix G.*

[18] Apostolic Lutheran Church of America, Brethren in Christ Church, Conservative Baptist Association of America, General Convention of the New Jerusalem in the U.S.A. "The Swedenborgian Church", Old Order Amish Church, Social Brethren.

The CMS staff employed the following procedures for checking the data submitted. The state and national totals were first checked against the county data and discrepancies adjusted. A print-out was then made of all data. To insure the accuracy of data-entry into the computer, the state and national totals were then compared to the original documents, as checked and adjusted. If the denomination participated in 1971 and the difference in a given county's membership for 1980 was greater than 20 percent, this was noted on the print-out. The print-out was then sent back to the denominational contact person, along with the staff's comments and questions. Only after all problems raised by both the staff and the denominational contact person were solved were the statistics considered ready for publication.

When the 1980 U.S. county figures for persons 13 years of age or under were received from the Census Bureau on April 12, 1982, the total adherents for groups reporting only communicants were estimated, according to the formula described above. The final step was to run a series of computer edit tests to check for errors and to produce the print-out of tables for this report.

DESCRIPTIVE DEFINITIONS OF CHURCHES AND CHURCH MEMBERSHIP

[The word "communicants" in the table below refers to "communicant, confirmed, full members."]

001 Advent Christian Church

Communicants: baptized believers, active and inactive.

005 African Methodist Episcopal Zion Church

Communicants: regular members with full membership status.
Adherents: probationary, baptized children, full members.

017 American Baptist Association

Communicants: those baptized into each church or mission and reported, plus members added by letter or statement.

019 American Baptist Churches in the U.S.A.
Churches: all congregations cooperating with ABC/USA.
Communicants: the total membership reported by each congregation (using the Baptist definition of members as baptized believers), plus the judiciary estimated membership for any non-reporting churches.

029 American Lutheran Church, The

Communicants: confirmed members.
Adherents: baptized members.

049 Armenian Apostolic Church of America (Eastern Prelacy)
Communicants: dues paying members.
Adherents: dues paying members, plus non-paying members.

053 Assemblies of God
Churches: local congregations who are in full fellowship with a district council of the Assemblies of God. Does not include independent churches served by an Assemblies of God minister or branch churches under the auspices of another local assembly.
Communicants: persons who have been approved for membership by the local church. Requirements for membership may vary slightly from church to church. Usual criteria for acceptance as a member is a testimony of faith in Christ as personal Saviour, baptism in water, a consistent moral life, and committment to support the church in attendance, finance, and personal involvement in its ministries. This figure may include some children under 12; however, it would be a very slight number.
Adherents: the instruction letter accompanying the Annual Church Ministries Report form sent to the local churches defined adherents as "The total number of persons who consider your church their church home or to whom your church regularly ministers whether they are members or not. Count all ages including children." If a church reported fewer adherents than their membership, Sunday morning average attendance, or Sunday school enrollment, the computer used the higher figure in tabulating adherents.

055 Associate Reformed Presbyterian Church (General Synod)
Churches: a congregation is a company of Christians, with their children, associated together according to the Scriptures for worship and work in the name of Christ, subscribing to a form of church government, and choosing and ordaining some to perform selected ministries.
Communicants: the communicant church member is one who has been baptized, who has made public his profession of faith in Jesus Christ and who has submitted his life to his lordship and to the ministry of the Church.
Adherents: includes communicant members and those children of believers who have not yet made public their profession of faith.

057 Baptist General Conference
Churches: the 696 churches have been officially accepted by the Conference in session at annual meetings.
Communicants: all members counted have joined the local church through baptism or transfer of letters.

059 Baptist Missionary Association of America
Churches: organized churches, mission churches not included.
Communicants: baptized members.

071 Brethren Church (Ashland, Ohio)
Churches: congregations that have voted to unite with our conference and have been approved for organization by the district conference.

Adherents: includes both participating members, as defined above; and non-participating members, which is defined as a member who exercises no interest in the fellowship of the congregation, regardless of place of residence. Such a society of believers, being within The United Methodist Church and subject to its Discipline, is also an inherent part of the Church Universal, which is composed of all who accept Jesus Christ as Lord and Savior, and which in the Apostles' Creed we declare to be the holy catholic Church." *Book of Discipline 1980,* par. 203.

Appendix B

DENOMINATIONAL COMMENTS ON THE CMS FORMULA FOR ESTIMATING TOTAL ADHERENTS

001 Advent Christian Church
I agree with your process.

019 American Baptist Churches in the U.S.A
We accept your procedure.

061 Beachy Amish Mennonite Churches
Perhaps this method of computing would be more accurate if also some allowance were made for persons not attending any church.

065 Bethel Ministerial Association, Inc.
Appears to be the best way.

071 Brethren Church (Ashland, Ohio)
Fine.

097 Christian Churches and Churches of Christ
Statistically, the method is sound. Since we can only deal with this in a statistical manner for our purposes, I agree with the method.

101 Christian Methodist Episcopal Church
I have no objections to the procedure as described.

127 Church of God (Cleveland, Tennessee)
o.k.

157 Church of the Brethren
No suggestions.

177 Congregational Holiness Church
This is probably the best way to estimate.

181 Conservative Congregational Christian Conference
We would have no alternate suggestion.

199 Evangelical Congregational Church
If you compute according to your program, this figure will not be our reporting figure.

201 Evangelical Covenant Church of America, The
Estimation by staff is acceptable to us.

203 Evangelical Free Church of America, The
You may either use the procedure you have proposed, or just double the figure given for full members. Membership rolls in the Free Church do not usually include children, but only persons 18 years of age and older.

213 Evangelical Mennonite Church, Inc.
o.k.

217 Fire Baptized Holiness Church (Wesleyan), The
Your proposal to estimate total adherents is good.

237 General Conference of Mennonite Brethren Churches
Your suggested way would fit well with our membership procedures.

263 International Church of the Foursquare Gospel
This seems to be a logical plan for estimating total adherents.

270 Conservative Judaism
I would suggest using 18 years or under rather than 13 years.

285 Mennonite Church
Your projected procedure is acceptable.

313 North American Baptist Conference
We suggest you go ahead and estimate the adherents the way you have described.

335 Orthodox Presbyterian Church, The
Method proposed is appropriate.

347 Pentecostal Free Will Baptist Church, Inc., The
The described procedure is fair and adequate.

349 Pentecostal Holiness Church, Inc.
The number that attend our Sunday Schools.

357 Presbyterian Church in the United States
No suggestions.

375 Reformed Episcopal Church
Average estimated factor: multiply by one and one-third (based on consideration of Sunday School figures—non adult, and regular non-communicant supporters).

395 Romanian Orthodox Church in America, The
Acceptable.

415 Seventh Day Baptist General Conference
Described method is acceptable.

435 Unitarian Universalist Association
No suggestions.

443 United Church of Christ
The adjustment formula for communions not supplying data on total adherents is probably as appropriate as any, although it does probably overestimate the number of UCC adherents. We know from our studies that our membership is older than the population as a whole and that our members' fertility rates are low.

449 United Methodist Church, The
(1) Appears to assume that children under 13 will be adherents in the same proportion as adults—a questionable assumption. (2) Affords no way of estimating adult adherents.

453 United Presbyterian Church in the U.S.A., The
As good as any.

Appendix E

SELF-ASSESSMENT OF REPORTING PROCEDURES

[An asterisk indicates that the group also supplied forms that were used in gathering the data. Those groups that supplied forms but did not comment on the accuracy of their reporting procedures are listed at the end.]

001 Advent Christian Church
Better than 95 percent.

005 African Methodist Episcopal Zion Church
Report is dependent upon yearly statistical report blanks submitted to each annual conference by pastors. Impossible to determine degree of accuracy.

017 American Baptist Association
Estimates were made only when printed associational minutes were not available.

019 American Baptist Churches in the U.S.A.
We have succeeded in securing a membership figure for every church listed in our current roster, with the exception of the Alabama church noted in our printout. Considerable effort has been expended to insure accuracy in these reports.

*029 American Lutheran Church, The
These statistics are based on current reports from 96.72 percent of the congregations whose membership is 97.75 percent of the total membership. The latest available baptized and confirmed membership figures were used for those congregations that did not submit current reports.

*053 Assemblies of God
Our total figures vary from those supplied to the *Yearbook of American Churches* because we count Puerto Rico and the Virgin Islands as an integral part of our General Council of the Assemblies of God in the United States. Also, the figures are noncomparable without figures released district by district for two reasons. First a number of our districts are multi-state or only part of a state. Also we have 8 non-geographic ethnic districts. The Hispanic, German, and Italian churches are added into their respective county and state in this report. These nongeographical ethnic districts represent some 8 per cent of our churches and constituency.

*059 Baptist Missionary Association of America
Data taken from churches reporting to local and district associations at the end of the church year. Minutes of these associations are collected and memberships are taken from those minutes for each church. Also, Baptist News Service mails each church a questionnaire and receives the same information.

061 Beachy Amish Mennonite Churches
Forms are mailed annually to a leader of each congregation to be filled in, indicating any change of leadership or number of members.

071 Brethren Church (Ashland, Ohio)
Information is sent from local church and tabulated for district and national reports.

075 Brethren In Christ Church
Our estimates are accepted as having general validity.

*081 Catholic Church
Figures are probably low.

097 Christian Churches and Churches of Christ
We used the most up to date statistics available at the time our research was done. These figures were from 1978-79. In a few cases we estimated membership where none was furnished for churches that were listed in the *Directory of The Ministry of Christian Churches/Churches of Christ.* Our procedure was based on the premise that the great majority of churches not reporting were small. In counties with a large population the small church had approximately 50 members. In counties with a small population the small churches had 25 members. These two figures were based on random contacts with small churches. Since only a few churches did not report their membership, we have determined our figures to be within 3 per cent accurate for the statistics that were available. When a city was listed in two counties of a state, the first county listed was credited with the churches and their membership. Our reference source was ***Webster's New Geographical Dictionary,*** published in 1972.

*105 Christian Reformed Church
They should be very accurate.

107 Christian Union
Some churches cooperated very well, but others did not; Arkansas and South Missouri very poorly. Others not reporting: Ohio 5, North Missouri 2, Iowa 2. I took information from other sources. I would say this report is 95 per cent correct.

133 Church of God (Seventh Day), Denver, Colorado, The
Isolated members were undoubtedly missed since the census was conducted at sabbath morning assembly.

149 Church of Jesus Christ, The (Bickertonites)
Accurate within plus or minus 0.02 per cent.

*165 Church of The Nazarene
Our procedures have been well established and our polity assures 100 per cent of local churches participating.

*167 Churches of Christ
Over one year of active solicitation by letter, visitation and phone calls has, in my opinion, produced a fairly accurate picture of the Churches of Christ. Totals are well below popular estimates, but these figures are realistic. No good census has been done on Churches of Christ since 1926.

177 Congregational Holiness Church
Taken from 1979 minutes of the 18th general conference.

179 Conservative Baptist Association of America
Our state directors who assisted us in this study misunderstood the directions, and figures were quite incomplete. However, I did add the number of adherents, as properly listed from 28 churches and divided them by 28. I came up with about 32 per cent of the average membership as determining those who are adherents. We did not total each state.

*181 Conservative Congregational Christian Conference
We record the information sent annually from our member churches; 15 per cent carry over old information.

*193 Episcopal Church, The
Each parish is required to report annually. Maximum error in a diocese would be a possible undercount of 1 per cent. The national totals are reliable (plus or minus 0.5 per cent).

195 Estonian Evangelical Lutheran Church
Pretty accurate.

197 Evangelical Church of North America, The
Reporting dates differ in some of our units, thus making for some slight discrepancy if individual county totals were to be added. The total given is as accurate as possible, as of the end of 1980.

*201 Evangelical Covenant Church of America, The
A high degree of accuracy has been achieved through the use of the attached annual statistical report form procedure.

*213 Evangelical Mennonite Church, Inc.
Each church is to fill out forms annually. We get full cooperation (with some repeated reminders).

E/ACCURACY OF REPORTING

217 Fire Baptized Holiness Church, (Wesleyan), The
Membership is updated annually and forwarded to the general secretary.

220 Free Lutheran Congregations, The Association of
Information secured from annual statistical reports sent by each congregation.

*221 Free Methodist Church of North America
For your general information, we have not, in the past, required churches to report the county in which they were located. Because of the number of small country churches in some states, considerable research was required to ascertain proper county position. I noticed that this caused a few differences in the position of a few churches when compared to their position reported in the 1971 church membership study you conducted. In future report forms, the county of each church will be required, thus alleviating the need for such long, time consuming research. My apologies for the delay in the transmittal of this information.

226 Friends
There is about 3 per cent difference in this report and material which we compiled in this office in April 1981 a year later. For this report we requested membership statistics from each Yearly Meeting office of the Society of Friends in USA, May 1980. Membership is defined in different ways. Some Monthly Meetings include children. Not all Meetings returned information and we did not always know the county location.

*237 General Conference of Mennonite Brethren Churches
We consider all our reporting procedures quite accurate in the area of membership. We are however dependent upon records and information submitted by the local church.

263 International Church of The Foursquare Gospel
The reporting procedures seem to be adequate.

270 Conservative Judaism
Our statistics are based on a yearly dues reporting form furnished by each member synagogue. We are totally dependent on the accuracy of their figures.

*274 Latvian Evangelical Lutheran Church In America, The
Quite accurate.

*281 Lutheran Church In America
The possibility exists for congregations to do an annual cleaning of membership rolls. However there is no churchwide uniformity in the performing of such a function. Other than that the statistics are quite adequate.

*287 Mennonite Church, The General Conference
Not all of the churches reported their membership this year. In that case, last year's figure was used if available. Some churches also do not report children, so that total adherents figure is low.

*290 Metropolitan Community Churches, Universal Fellowship of
Since we are small our figures are accurate. Each church reports its attendance and membership monthly.

291 Missionary Church, The
Based on reports submitted by churches and district offices.

293 Moravian Church In America (Unitas Fratrum), Northern Province
Statistics are accurate as of December 31, 1979. Where statistics were lacking, 1978 statistics were used.

*313 North American Baptist Conference
Of the 254 churches listed, 27 did not send in reports this year. Therefore, we used the figures we had from 1978.

323 Old Order Amish Church
There is no accurate way of determining membership of the Old Order Amish. All we use is the *Almanac's* Minister's List and to my knowledge it is about all we have that contains all the church districts.

*329 Open Bible Standard Churches, Inc.
Should be very accurate as they were obtained for us by our district superintendents.

335 Orthodox Presbyterian Church, The
Some counties not reported by churches. Best information used to determine missing counties.

347 Pentecostal Free Will Baptist Church, Inc., The
These statistics are reported to us by the officials of the local church and may be considered facts.

349 Pentecostal Holiness Church, Inc.
I took the churches recorded and located them in their proper county.

353 Christian Brethren
50 per cent of churches provided data. For the remainder, home office and field personnel provided data.

*357 Presbyterian Church In The United States
The membership figures are taken directly from our statistical files on the computer. The accuracy of the county report breaks down at the point of dividing members between our denomination and the other denominations. Our actual membership on Dec. 31, 1979 was 852,711.

367 The Protestant Conference of The Wisconsin Synod
Interviewed pastors of various congregations at annual conference.

*371 Reformed Church In America
Very accurate.

403 Salvation Army, The
Number of churches and full members 100 per cent accurate. Total adherents accurate to within 1-2 per cent.

413 Seventh-day Adventists
Each quarter begins with the closing membership of the previous quarter. Then the baptisms and letters of transfer into the church are added and the letters of transfer out to another church and the missing, deaths, apostasies are subtracted. This makes the total for that quarter. This is very accurate.

415 Seventh Day Baptist General Conference
Since Seventh Day Baptists are autonomous we are dependent upon their record keeping methods which may include inactive or non resident members.

*443 United Church of Christ
Our studies indicate that local church membership reporting is pretty good as church membership

statistics go. The vast majority of our churches report that they have a regular procedure for reviewing their membership rolls and most include in their reports only active resident members.

*453 United Presbyterian Church In The U.S.A., The
We believe that our figures are quite accurate. They are edited using figures supplied by the individual churches by using the previous year's ending figure, plus gains and minus losses to equal active members.

*469 Wisconsin Evangelical Lutheran Synod
Our pastors follow instructions pretty well, out of 1127, only 6 failed to report; figures for them were used from previous year. Figures requested and received are through December 31, 1979.

GROUPS WHO SUPPLIED FORMS USED TO COLLECT THE DATA, BUT WHO DID NOT COMMENT ON THE ACCURACY OF THEIR REPORTING PROCEDURES: 063 Berean Fundamental Church; 089 Christian and Missionary Alliance; 157 Church of the Brethren; 163 Church of the Lutheran Brethren of America; 185 Cumberland Presbyterian Church; 203 Evangelical Free Church of America; 295 Moravian Church in America (Unitas Fratrum), Southern Province; 356 Presbyterian Church in America; 359 Primitive Advent Christian Church; 363 Primitive Methodist Church, U.S.A.; 375 Reformed Episcopal Church; 419 Southern Baptist Convention; 435 Unitarian Universalist Association.

075 Brethren In Christ Church
Only one church in the Atlantic Regional Conference.

093 Christian Church (Disciples of Christ)
We do not have complete records, but we estimate at least 20-25 churches have dual affiliation. 157 Church of the Brethren

274 Latvian Evangelical Lutheran Church in America, The
Churches of dual affiliation have been excluded. They would have belonged to LCA or ALC.

283 Lutheran Church—Missouri Synod, The

287 Mennonite Church, The General Conference
31 churches involved.

293 Moravian Church In America (Unitas Fratrum), Northern Province
Only in terms of sharing pastoral leadership.

313 North American Baptist Conference

[NOTE. With PCUS approval, the CMS staff subtracted from the PCUS original report one-half the total membership of those PCUS churches which are dually affiliated with the UPCUSA.]

371 Reformed Church In America
Very limited, with UPUSA and United Church of Christ.

419 Southern Baptist Convention
Many of our churches in the District of Columbia state convention are affiliated with the American Baptists. These churches are located both in DC and Maryland.

435 Unitarian Universalist Association
About 40 churches have dual affiliation, either federated churches or tied in with Congregational, Methodists, Baptists or Quakers.

453 United Presbyterian Church In The U.S.A., The
Yes. On our listing the churches are indicated with a (U) to the right of the membership figure. That total should be doubled for the total membership of the church. The total listed membership is our denomination's portion of the total. The denomination that is affiliated with us is the Presbyterian Church in the U.S.

INSTRUMENTS FOR GATHERING THE DATA

Initial Invitation

Dear Friend,

We are writing to you at the suggestion of Constant Jacquet, editor of the *Yearbook of American Churches.* This is a cordial invitation to your denomination to participate in the 1980 update of the Church Membership Study. This study is a unique gathering of information which has the potential of meeting various needs of the institutional Church, the religious community at large, and religious and academic researchers. As a compilation of statistics from many religious bodies, it is an important planning and analytical tool. From its data we learn about our own and other communions in geographical, historical and comparative perspective. It is an important resource for documenting our challenge to evangelize the unchurched. Finally, it is the statistical foundation upon which much research is constructed, beneficial to religious and academic communities.

Denominations are asked to furnish 1979 county data on number of churches and members, by SEPTEMBER, 1980. Details are on the enclosed green sheet.

We will, of course, furnish complimentary copies of the study's printed publications to all participating communions.

A flyer about the study is enclosed. If you need more information, please let me know. In the meantime, PLEASE INDICATE YOUR WILLINGNESS TO PARTICIPATE IN THE STUDY BY RETURNING THE BLUE MEMORANDUM in the self-addressed envelope. We hope to hear from you soon.

Sincerely,

Rev. Bernard Quinn

Instructions for Reporting Denominational Data—Form A

DATA REQUESTED

For each state and county of the United States, we are requesting three items of information:

1. the number of CHURCHES: local parishes or congregations;
2. the number of COMMUNICANT, CONFIRMED, FULL MEMBERS: regular members with full membership status; and
3. (if available), the number of TOTAL ADHERENTS: all members, including full members, their children and the estimated number of other regular participants who are not considered as communicant, confirmed or full members, for example, the "baptized," "those not confirmed," "those not eligible for communion," and the like.

Procedure. Data may be reported on the State-County List (Form C) furnished by us, or, if more convenient, on your own computer print-out or list of comparable format. Please complete the Transmittal Sheet (Form B), which will be useful for determining the comparability of statistics reported by the various religious bodies.

DATE OF STATISTICS

We are asking that statistics be reported to us by the month of September, 1980. We hope to receive data for your *statistical year that ends anytime during 1979;* report earlier data only if that is all that is available by September, 1980.

SPECIAL PROBLEMS

DATA ON TOTAL ADHERENTS NOT AVAILABLE

It is our hope that denominations reporting full members will also be able to furnish data on total adherents. If they are unable to do so, the total adherents will be estimated by the staff of the Church Membership Study as follows: the total county population will be divided by the total county population less children 13 years of age and under, and the resulting figure will be multiplied by the communicant, confirmed or full members. In the published report, an asterisk will indicate that total adherents were estimated through use of this procedure.

If you will not be furnishing data on total adherents, please complete Item 5 on the Transmittal Sheet.

REPORTING COUNTY OF MEMBERSHIP VERSUS COUNTY OF RESIDENCE

Ideally, we hope to count church members in their county of residence instead of the county in which they hold membership or participate in a church. We realize,however, that many denominations count members in their county of membership or participation rather than in their county of residence. For the record, please state your policy on this by completing Item 6 on the Transmittal Sheet.

DUAL AFFILIATION OF LOCAL CHURCHES

Some local churches maintain affiliation with two denominations. If this is true of local churches in your denomination, please complete Item 7 on the Transmittal Sheet.

ALASKA

The data of the U.S. Census for Alaska has been classified by "census divisions." Since Alaska has no counties, the census divisions serve as county equivalents for statistical reporting purposes. A list of census divisions follows: [See *Appendix D.*]

VIRGINIA

In Virginia there are 38 "Independent Cities" which are legally separate from the counties of that state. Most denominations probably still record churches by location within the counties from which the cities have separated. For this reason we request that the data of your denomination be so organized as to record the data of the following Independent Cities with the counties indicated: [See *Appendix C.*]

5. IF TOTAL ADHERENTS ARE NOT REPORTED:

   Please comment on the procedure described in the Instruction Sheet whereby we propose to estimate the total adherents. Is this the best way? Would you offer any suggestions?

6. COUNTY OF MEMBERSHIP VERSUS COUNTY OF RESIDENCE

   For the record, please state your general policy on reporting church members: by county of membership and/or by county of residence?

7. DUAL AFFILIATION OF LOCAL CHURCHES

   Do any local congregations of your denomination maintain affiliation with another denomination as well? If "yes," please indicate the general extent of this practice and the denomina-tion(s) involved.

8. COMMENTS ON ACCURACY OF REPORTING PROCEDURES

   (Attach additional sheets if needed.)

NOTE. It would be greatly appreciated if you could attach to this Transmittal Sheet sample copies of forms used for gathering local data.
